

Innovation Highlight: Automated Credit Memo

Accelerate decision-making and business growth with Moody's Automated Credit Memo, powered by generative AI (GenAI). This innovative solution transforms credit memo creation, saving time and boosting productivity. Banks produce thousands of credit memos a year and underwriters can spend hours compiling all the necessary information for just one.

This tedious and time-consuming work slows down the process and limits your capacity to process other loans and focus on more strategic underwriting tasks. Moody's Automated Credit Memo alleviates this bottleneck by delivering a written, comprehensive credit memo to you for review and approval.

What we enable?

EFFICIENCY

GenAI assists in the underwriting process, extracting and synthesizing information from various sources. Save time and effort by generating a comprehensive credit memo at the click of a button that you can edit as needed.

CONSISTENCY

Enable consistent credit memos across your business regardless of loan complexity or author. GenAI follows configurable rules and standards, enabling all memos meet regulatory requirements.

COMPREHENSIVE ANALYSIS

Gain deeper decision-making insights with AI-led pattern and trend analysis, enhanced by Moody's rich content on borrowers and market conditions.

**Embrace the future with Moody's Automated Credit Memo,
leveraging GenAI to streamline tasks and accelerate decisions.**
