

Our Lending Suite for Agriculture provides a tailored experience to help you collect, originate, and decision agricultural credit requests with more confidence and ease amidst the sector's inherent unpredictability.

The agricultural (Ag) market faces unique challenges, from volatile markets and cyclical production to complex operations.

Time-pressed producers benefit from lenders who act as strategic partners, offering financial insights and risk analysis to complement their Ag expertise.

Leveraging decades of experience and industry-leading insights, Moody's equips lenders to navigate these challenges effectively, offering unparalleled support to the Ag sector and producers worldwide.

What we do?

CLEARER VISIBILITY INTO AGRIBUSINESS RISK

Gain a deeper understanding of your customer and enhance your Ag portfolio's resilience with integrated data, advanced modeling, flexible debt schedules, and industry-leading financial and productivity analysis, including benchmarking capabilities.

BUILD A STRATEGIC PARTNERSHIP

Become a trusted partner by helping producers understand how they compare to their peers and develop plans to reduce the impact of market volatility.

DIGITAL TRANSFORMATION FOR GROWTH

Enhance your Ag lending operation with a modern solution designed to grow with your business, centralize data, and simplify workflows.

EFFECTIVE PORTFOLIO RISK MANAGEMENT

Enhance risk detection and streamline operations with our loan monitoring and covenant management solutions, featuring automated testing, early warning signals, and team collaboration tools for quick compliance and effective risk management.

How can we help you?

BORROWER ENGAGEMENT

Elevate your customers' experience with a digital borrower and lender portal that simplifies information gathering, provides real-time access to request status, streamlines communication, and allows transparency. Strengthen relationships through better collaboration and insights, helping you to offer a competitive edge to your Ag clients and support their financial success.

SPREADING & SCORING

Organize and analyze Ag credit request with tailored industry-specific financial templates and reports. Enhance strategic planning and adaptability to changing market conditions for both lenders and clients with intuitive debt scheduling, Ag projections, and benchmarking analytics.

UNDERWRITING & DECISIONING

Make informed credit decisions with a comprehensive view of risk by integrating industry data, producer metrics, and macroeconomic factors. Harness the power of GenAI to automatically compile producer data and documents, along with Moody's rich content, into fully-written, ready-to-edit credit memos.

LOAN OPERATIONS

Streamline your loan processing with our solution, designed to maintain a flawless flow of complete and accurate data across all teams—from loan operations to the front office and directly to customers. Enhance collaboration and decision-making with our direct line of communication. Dramatically reduce paperwork and accelerate closing times with our auto-generated documentation and one-click digital signature feature for borrowers.

MONITORING

Simplify your credit risk management with our loan monitoring and covenant management solutions. Benefit from easy-to-use covenant templates and a comprehensive policy library, designed for swift compliance and seamless document handling. Our system's automation streamlines testing and alerts, while collaborative tools foster team efficiency. With our advanced pattern detection and early warning solutions, based on extensive performance indicators, you'll be equipped to identify and address risks more effectively than ever.

Moody's Lending Suite for Agriculture offers a comprehensive solution helping lenders to confidently address the unique challenges of the agricultural sector, from risk assessment and strategic planning to streamlined operations and digital transformation, enhancing both lender efficiency and client success.
